

Geothermal Loans with 100% financing and no money down.

Our geothermal financing options are structured with predictable, fixed monthly payments, designed to be lower than your current energy costs so you can begin realizing savings immediately. Once the loan is paid in full, you own your geothermal system outright, allowing your long-term energy savings to continue to grow. With no prepayment penalties, you maintain full flexibility, while your investment also supports the expansion of clean, renewable energy solutions for homeowners.

Fixed Rates

60 days no payments and no interest

Loan amounts up to \$150,000 per loan

12-, 15- and 20-year terms available.

Concerned about loan rates dropping? We've got you covered! Before your loan closes, we'll review your rate, and if it's decreased in your loan tier, we'll automatically adjust it! And don't worry—your rate is locked in for 6 months, so it can only go down, never up!
